

## Software for Charities

Reviewed by: CVC Circuit Riders    Date: October 2009

Is expensive software preventing you from making the most of ICT?

Sometimes the cost of software can be a barrier to making the most of ICT.

There are some donation programmes that supply charities with very reasonably priced software. Most require you to be a registered charity but it is always worth checking the criteria as it could save you a fortune in the long run.

For more information and to look at the types of software being donated take a look at the [IT For Charities website](#).
